Lets work together

Spread the word across Europe

Europe's major political, economic and industrial debates are being shaped at a time of unprecedented geopolitical change, climate pressure and technological transformation. These discussions deserve to be followed, explained and debated far beyond the Brussels bubble.

As a media partner, you gain privileged access to high-level conferences organised by us, bringing together policymakers, industry leaders and experts from across Europe. Our long-term media partnerships are designed to help outlets amplify key narratives, enrich editorial content, and connect national audiences with Europe's strategic conversations.

Who are we?

logos is an advocacy, coalition-building and public dialogue consultancy. Boutique in spirit and global in reach, we support meaningful engagement with decision-makers across Europe and beyond. Part of the MCI Group since 2012, we work with 62 offices in 31 countries worldwide.

Policy and industry conferences in 2025

Our portfolio

Together with European Institutions and leading European businesses, we have organised numerous high-level conferences.

Our pro-European focus sets our events apart from other Brussels conferences:

- **By Europeans, for Europeans:** issues and topics are selected in close cooperation with EU policy and European industry leaders before inviting them to meet and debate;
- **Europe's strategic autonomy and cooperation:** We place key strategies meeting the challenges faced by Europeans, as climate change, energy transition, digitalisation and cyber security, autonomy in space or defence and security, etc., at the centre of our dialogues.

Our team is currently assessing and prioritising several new sector-based European conferences, to meet the demand for ongoing dialogues across key policy areas.

Next edition:
8 December 2026
Egmont Palace, Brussels

6th European Energy and Industry Conference

Available, affordable and low-carbon energy for competitive and clean European industries

European Energy and Industry Conference 2025

Partners from last edition

Industry partners

Media partners

Media partnership specificities

We aim to establish a long-term cooperation that is advantageous for both parties, with components that can be adjusted in concert as events unfold.

Cooperation approach

The cooperation is entirely free of fees and charges. Each party will bear their own expenses. Once the cooperation is discussed and agreed, a GDPR-proofed 'media partnership' agreement is signed between parties.

Main aspects

Keep media partnerships simple, clear and agile:

- **Exclusive access** to conference content and venue
- Opportunities to **moderate sessions** and engage with high-level speakers
- Support for **1-1 interviews** and media briefings
- Visibility across **all our event communications and website**

Benefits for media partners

- “Visibility” of the media partnership on all event media
- Briefing and ‘explainers’ on the planned discussions ahead of the events
- Opportunity to moderate sessions in the name of the media
- Privileged access to high-level speakers for interviews
- Facilitation of ‘Press corner’ meetings to dive deeper into topics
- Dedicated hotline over the year for comments and info on EU industrial issues

Additional benefits can be discussed with the partner.

Benefits for logos

- Announcement of conference 2-4 weeks before the D-day
- Article on the conference on D-day or shortly after
- Mention of the 'media partnership' on the conferences' websites and related public communications

Thank you!

We hope to see you on
8 December 2026
